

e.sybox FOR SUMMUM MEDICINA PRIVADA IN MONTEVIDEO, URUGUAY

WHERE:

Montevideo is the capital and the main administrative, economic and cultural centre of Uruguay. Almost half the population of the country resides in the city.

Located in the south of the country, it faces the north bank of Rio de la Plata. The city is developed along the right bank of the Santa Lucia river.

One kilometre from the south coast is SUMMUM Medicina Privada, which provides full healthcare services.

WHEN:

October 2016

CUSTOMER:

Summum Medicina Privada

INSTALLER:

Hidromecanica Lesa SA

THE REQUEST:

We were asked to offer a water supply system for the whole building.

Being a centre dealing with healthcare, the determining factor for the customers in selecting e.sybox were its *Healthcare Compliance Certification (ACS)* and its *WRAS (Water Regulations Advisory Scheme)* approval, a must when using materials and/or components in drinking water environments.

To ensure constant pressurization, a pumping station consisting of 2 e.sybox was installed.
